

# **SASKATCHEWAN HAL LICENCE ACCESS CHECKLIST**

## **Saskatchewan Starting Point**

**Saskatchewan uses the Hunting, Angling and Trapping Licence system, usually called HAL.**

### **Official angling licence page:**

**<https://www.saskatchewan.ca/en/Residents/Parks-Culture-Heritage-and-Sport/Hunting-Trap-ping-and-Angling/angling/Buy-an-Angling-Licence>**

**If you already have a HAL account or HAL number, use it. Saskatchewan says not to create a second account.**

## **Step 1: Recover The Right HAL Profile**

**- Find your HAL number if you have used Saskatchewan hunting or angling services before.**

- Try the email or secondary ID previously registered to the HAL account.
- Do not create a second HAL number to get around a login problem.
- If the account cannot be recovered, call the licence support number on the Saskatchewan angling licence page.

## **Step 2: Find The Licence**

**- Sign in through the HAL system.**

- Look for active licences, current purchases, or licence history.
- Check whether the licence is stored in the SK Hunt and Fish mobile app.
- Save the licence proof before leaving cell service.

## **Step 3: If You Need Assisted Purchase Or Recovery**

### **Saskatchewan lists several purchase paths:**

**- HAL account online**

- angling licence issuer
- Ministry of Environment field office or select provincial park office
- phone order through the published support line

**Use a person if the issue is an account conflict, wrong profile, duplicate HAL risk, or urgent same-day trip.**

#### **Step 4: What To Carry**

- Licence proof from HAL or SK Hunt and Fish.**
- Photo ID if needed to match your profile.
- Any extra document for species, waterbody, or special restriction.
- Offline backup if you will lose cell service.

#### **Step 5: Before Fishing**

- Confirm residency class: Saskatchewan resident, Canadian resident, or non-resident.**
- Confirm annual, three-day, or one-day licence dates.
- Confirm season dates and limits for the waterbody.
- Confirm whether the trip needs any separate permission beyond the angling licence.

#### **Support Message**

**Subject: Saskatchewan HAL angling licence access problem**

**Hello,**

**I bought or tried to access a Saskatchewan angling licence but cannot find it now. The purchase or profile may be tied to this email or HAL number: [email or HAL if known].**

**Could you help me access the correct HAL account and find or reprint the licence before my trip?**

**Thank you,**  
[name]
